

Research Symposium 2017 Winners

Overall Winners

Alleviating City's Environmental Impacts and Revitalizing Its Urban Fabric Through Green Roofs – A Case Study In Ho Chi Minh, Vietnam

Huy Bui
Undergraduate Student
Poster Presentation
Creative Arts & Design

Lyme: An Insidious Disease

Dymond Burnette
Undergraduate Student
Poster Presentation
Biological & Biomedical Sciences

Disincentivized and Demobilized: An Olsonian interpretation of the 2013 Shahbag Movement

Anupam Roy
Undergraduate Student
Poster Presentation
Social Sciences

Graphene-based Tunable Terahertz Metasurfaces

Erin Strickland
Undergraduate Student
Poster Presentation
Physical Sciences & Engineering

The missing landscape of human genomic diversity in the Arabian Peninsula

Njlal Bakhsh
Graduate Student
Poster Presentation
Biological & Biomedical Sciences

Metabotropic glutamate receptors and GABA receptors regulate firing properties in mitral cells of the mouse main olfactory bulb

Eugene Park
Professional Student
Poster Presentation

Biological & Biomedical Sciences

Effect on Oligosaccharide Grafting on the Polyelectrolyte and Protonation Dynamics of Polyethylenimine

Saswati Basu
Post Doc/Resident/Fellow/Research Associate
Poster Presentation
Biological & Biomedical Sciences

The impact of the US Preventive Task Force recommendations against prostate screening on utilization of the Howard University Cancer Center's "Men Take Ten" prostate cancer screening program

Clinton Burnside
Staff
Poster Presentation
Education & Outreach

Color, Caste, and the Public Sphere: A study of black journalists who joined television networks from 1994-2014

Indira Somani
Junior Faculty/ Lecturer/ Instructor
Oral Presentation
Social Sciences

Reversible Firing Pattern Transformation in Central Olfactory Neurons

Thomas Heinbockel
Senior Faculty
Oral Presentation
Biological & Biomedical Sciences

Why Cancer Prevention and Early Detection Must be Priority

Bernard Kwabi-addo
Senior Faculty
Oral Presentation
Education & Outreach

Biological & Biomedical Sciences

Lyme: An Insidious Disease

Dymond Burnette
Undergraduate Student
Poster Presentation

The missing landscape of human genomic diversity in the Arabian Peninsula

Njlaa Bakhsh
Graduate Student
Poster Presentation

Metabotropic glutamate receptors and GABA receptors regulate firing properties in mitral cells of the mouse main olfactory bulb

Eugene Park
Professional Student
Poster Presentation

Effect on Oligosaccharide Grafting on the Polyelectrolyte and Protonation Dynamics of Polyethylenimine

Saswati Basu
Post Doc/Resident/Fellow/Research Associate
Poster Presentation

Specific Interaction of Amphiphiles with Sodium Channels

Ze-jun Wang
Junior Faculty/ Lecturer/ Instructor
Poster Presentation

Sex differences in fear conditioning following footshock stress in mice

Mark Hatcher
Staff
Poster Presentation

Reversible Firing Pattern Transformation in Central Olfactory Neurons

Thomas Heinbockel
Senior Faculty
Oral Presentation

Business

How Consumerism Caused (and Can End) the Plastic Plague

Jordan Mcrae
Undergraduate Student
Poster Presentation

Are Economic Development Projects Tipping Points for Their Neighborhoods?

Amira Alghumgham
Graduate Student
Poster Presentation

Audit Fee Trends from 2000 to 2014

Lucy Lim
Junior Faculty/ Lecturer/ Instructor
Poster Presentation

In Pursuit of Greater Social Capital: Customizing Online Relationships for a Return on Investment

Rajni Goel
Senior Faculty
Oral Presentation

Creative Arts & Design

Alleviating City's Environmental Impacts and Revitalizing Its Urban Fabric Through Green Roofs – A Case Study In Ho Chi Minh, Vietnam

Huy Bui
Undergraduate Student
Poster Presentation

Education & Outreach

Small-group instruction, specifically differentiated learning increases students instructional reading levels.

Nykia Singletary
Undergraduate Student
Poster Presentation

Strengthening the Academy: Scholarly Productivity of Black Ph.D. Students

Rhonda Celey
Graduate Student
Oral Presentation

An Undifferentiated Intern Readiness Course for Fourth Year Medical Students Prepares for the Transition to Internship

Ladonna Kears
Professional Student
Poster Presentation

Exploring the Efficacy of International Service Learning to U.S. College Student Development and Community Needs in Ghana among Students of Color

Beverly Booker ammah
Junior Faculty/ Lecturer/ Instructor
Oral Presentation

The impact of the US Preventive Task Force recommendations against prostate screening on utilization of the Howard University Cancer Center's "Men Take Ten" prostate cancer screening program

Clinton Burnside
Staff
Poster Presentation

Why Cancer Prevention and Early Detection Must be Priority

Bernard Kwabi-addo
Senior Faculty
Oral Presentation

Ethics, Law & Religion

The Challenges Facing Our Nation: Providing Possible Solutions to Police Brutality Against Citizens in the United States

Donshaya Courts
Undergraduate Student
Oral Presentation

The Churches Role in Education Reforming

Andrew Lofton IV

Graduate Student
Oral Presentation

Womanism & Advertising Ethics in a Converged Era (Poster Design or Oral Presentation)

Joanna Jenkins
Junior Faculty/ Lecturer/ Instructor
Poster Presentation

Humanities

New Master, Same House: The Paradox of Black Women's Self Ownership in Beyonce's Lemonade

Alexandra Green
Undergraduate Student
Oral Presentation

A Crowdsourced, Comprehensive Database of Rare Diseases Prevalent Predominant in People of African Descent: The Case Study of Noma

Noble Htar
Professional Student
Poster Presentation

Physical Sciences & Engineering

Graphene-based Tunable Terahertz Metasurfaces

Erin Strickland
Undergraduate Student
Poster Presentation

Effect of Sorted Single-Walled Carbon Nanotubes on Rate Capability of Lithium-ion Batteries

Adewale Adepoju
Graduate Student
Poster Presentation

Non-Linear Bending Mechanics of Three-dimensional Slender Structures

Jyothirmai Simhadri
Post Doc/Resident/Fellow/Research Associate
Poster Presentation

Theoretical/Virtual Synthesis of Ultra Thin Diamonds: Chemically Induced Phase-Change in Graphene

Pratibha Dev
Junior Faculty/ Lecturer/ Instructor
Oral Presentation

Photocurrent in Bismuth Junctions with Graphene at Room Temperature

Tito Huber
Senior Faculty
Oral Presentation

Framework Implementation for CPES on Micro-grid Test Bed

James Momoh
Senior Faculty
Oral Presentation

Social Sciences

Disincentivized and Demobilized: An Olsonian interpretation of the 2013 Shahbag Movement

Anupam Roy
Undergraduate Student
Poster Presentation
Social Sciences

The Turning Point of Formerly Incarcerated African American Men

Zipporah Mccoy
Graduate Student
Oral Presentation

Nana's Need: How to Protect the Baby Boomer Generation Now Eligible for Medicare

Heidi Thomas
Professional Student
Oral Presentation

Gender Differences and the Impact of Exposure to Violence on Alcohol, Drug Use, and HIV Risk Behaviors among African American Young Adults

Forough Saadatmand
Staff
Poster Presentation

Color, Caste, and the Public Sphere: A study of black journalists who joined television networks from 1994-2014

Indira Somani
Junior Faculty/ Lecturer/ Instructor
Oral Presentation

Translational & Clinical Sciences

Acute Aerobic Exercise Does Not Alter Heart Rate Variability During Mental Stress in Young Adult African Americans

Precious Ndukwe
Undergraduate Student
Poster Presentation

A Historic African American Skeletal Collection Reveals Bacterial Infections

Christopher Cross
Graduate Student
Oral Presentation

30 day admissions in the Post-HAART era in a urban teaching institution: The impact of compliance and ART use

Detron Brown
Professional Student
Poster Presentation

Does the location and histopathological status of colon polyps affect interval colonoscopy

Vamshi vasantha raya Gorantla
Post Doc/Resident/Fellow/Research Associate
Poster Presentation

Perspectives on supported employment for dually diagnosed clients on medically assisted therapy for opioid use disorder

Imani Brown
Staff
Poster Presentation

Oral Presentation
Translational & Clinical Sciences

How Does the Estrous Cycle Influence Fear Conditioning in Female Mice?

Linda Boadi
Staff
Poster Presentation

Small molecule development for innate immunity-derived inflammatory disorders

Amol Kulkarni
Junior Faculty/ Lecturer/ Instructor
Poster Presentation

Clinical Pharmacogenetic Testing in the Management of Opioid Use Disorder: A Case Series

Earl Ettienne
Junior Faculty/ Lecturer/ Instructor
Oral Presentation

Microenvironmental Responsive Polymeric Nanoparticles Fabricated By Dispersion Polymerization for The Delivery of Bioactive Agents

Emmanuel Akala
Senior Faculty
Oral Presentation

Knowledge, Attitudes, Experiences, and Willingness to Participate in Clinical Genetic Testing and Genetic Research Among Women of African Descent

Veronica Thomas
Senior Faculty
Poster Presentation

MiRNA-124 Mediates Sphingosine Kinase 1 Expression, Sphingosine-1-phosphate and Ceramide Signaling Pathways in Head and Neck Squamous Cell Carcinoma

Xinbin Gu
Senior Faculty
